

COMPRESSION GARMENTS FOR GYNAECOMASTIA

Dr Somia will measure you for post-operative compression garments at your pre-op consultation.

These garments are essential to manage post operative swelling and assist in reattaching your skin to the underlying tissues.

You will wear your compression garments 24/7 for 6 weeks after your surgery. The garments will include any area that has been treated.

You will wake up in your garment and will be given 2 garments for washing purposes.
